Gary, can you get me another copy? Then we can read and get back to you asap.

On the personal front, this has been a tough move. The job is great but during the move Dana fell and separated her shoulder, our daughter got in a car accident and while not hurt, we watched for 45 minutes while they literally cut the car apart to get her out. Then on 8/11 I fell and shattered my left ankle. Have pins and plates and screws and am on crutches for a long time. Just today finally got to drive for the first time. So, it has been a challenge.

I hope we can work together on the CJ piece and look forward to getting the material.

Mike
