Subject: FW: list of students who have requested transcripts to Capella

Mike:

I'm glad we had a chance to catch one another in San Antonio. I am serious about having you and Dana visit us. I told you I would send you the names of students who have requested that transcripts be sent to you. Here they are. We would be interested in learning how many takers there are. This experience may inform your relationships with the other UC's. I am very interested in your continuing assessment of the Reading Program. I'll be in touch soon.

Gary
